# Md Jahangir Alam

*Chairman*

Today JHM Group of Companies has made a remarkable name in International Trading of Coal & Stone from Middle East to Southeast Asia. We started our journey in India with Aggregates Export, Agro Commodities Export, Coal Import, Rice Manufacturing, Civil & Infrastructure Construction and Logistics Services.

The exponential growth diverted to Bangladesh. At present Bangladesh is one of the highest growing market in Southeast Asia. Import of Stone from India, Dubai & China and Import of Coal from Indonesia & South Africa forms the major turnover in Bangladesh. Apart from this we also have vast interest in Real Estate in Bangladesh.

The philosophy of JHM is to focus in one business and expand to the maximum possible horizontal expansion. Since the major source of Aggregates in Bangladesh is from United Arabs of Emirates, we got every reason to set up our entity in Dubai. From our Dubai Company we Export high quality aggregate to our Bangladesh Company, thus very less Importer in Bangladesh can compete with us. With this humble introduction, I would like to take the pleasure of presenting my JHM's "Corporate Profile"
